

The second Generation Hydraulic Rod Pumping Unit.
Patent pending in Canada, USA, and Australia.

New Product Release!

Oct 12 2022

The **ONLY** Long Stroke Hydraulic Rod Pumping Unit to Directly Compete with the Rotaflex:

Comparison between EN series and Rotaflex

	Reliability	Efficiency	Turnkey price	Warranty	Op costs	Maintenance	Oil leakage	SPM	Weight
Rotaflex	Good	The same	Similar	The same	More	Complex	No	Less	More
EN series	Better				Less	Easy	Not one drop	20%higher	Only 30-40%
Ram seals			Lifetime Leak Free due to Superior Structures						
Hydraulic oil change duration			5 years						
Control system			Intelligent Control System						
Plumbing			Steel Plumbing						
Ambient Temp			-40°C to +40°C						
18 years and over 300 long stroke units design experiences!									

System example: 35,000lbs PPRL, 320" stroke length, 5spm. Need 100hp at 90% load

Model	PPRP	Stroke	SPM	Weight	Installation	Structure
EN-25-320	25,000lbs	240"-300"	4-6	15,000 lbs	3 Piles	75,000lbs
EN-35-360	35,000lbs	240"-360"	4-6	20,000 lbs	3 Piles	100,000lbs
EN-50-360	50,000lbs	240"-360"	4-6	23,000 lbs	3 Piles	150,000lbs
